We Got our Modulr kitchen ,acrylic wardrobe ,acrylic Tv Unit done with DYHome .The Process took 20 Days approx.The Store Owner was always available to help .

If ur looking For these These type of product & service they r the best .

Of course the price may seen higher initially but if u look at hassle-free usage it will workout cheaper in the long run.

DY home, have done my apartments modular kitchen and some civil work.

Initially we had approached a reputed online interior decor firm for the same work scope and they were charging double amount for the half of workscope done by DY homes.

Mr. Amit Solanki is a true professional and I'm happy that we did not go ahead on dealing with a reputed online interior decor firm for my interiors and modular kitchen due to huge amount of uncertainties and ambiguities in their initial quotations and final quotation for which I would have ended up paying more than 50% of the quoted amount.

I did not find these issues with DY home as they thrive on customer satisfaction rather than running a money minting business. The quality of work is excellent and work completed within the estimated timeline.

I would recommend DY home for those who want good quality workmanship and on scheduled time at a very reasonable price.
